The Inogen One[®] G2 System (IS-200):

- 40% Smaller
- 25% Lighter
- 20% More Oxygen
- Authorized by FAA onboard aircraft

*Included with system

**Accessory sold separately

Oxygen. Anytime. Anywhere®

The new Inogen One® G2 delivers the independence of our original Inogen One portable concentrator, but it's smaller, lighter, and makes more oxygen with a longer battery life. It's a portable concentrator small enough to hold in your hand. That means there are no tanks to refill and you never have to worry about running out of oxygen.

The Inogen One® G2 is your one solution, your single solution, for oxygen at home, away, and for travel (approved for use on all US airlines). The Inogen One® G2 is Oxygen. Anytime. Anywhere®.

To learn more, call toll-free 1-866-543-4664.
