

Inogen Minimum Advertised Price (MAP) Policy

Effective Date: January 15, 2016

Inogen takes great pride in its commitment to offering reliable, high quality products and exceptional customer support. Inogen recognizes that advertising and sales practices that promote Inogen products primarily on the basis of price could degrade Inogen's brand image, weaken customer support efforts, and damage the valuable goodwill Inogen has developed in its trademarks.

To protect Inogen's brand image and goodwill, Inogen has unilaterally adopted the following Minimum Advertised Price Policy ("Policy") for all products sold under the Inogen brand name ("Products"). Inogen's goal in establishing this Policy is to ensure that all Products are advertised, promoted and sold in a way that will maintain the integrity and reputation associated with Inogen's products and protect Inogen's brand image.

This unilateral Policy applies to all resellers of Products including those that advertise online (collectively referred to as "Resellers"). Inogen is not seeking agreement from any Reseller to comply with this Policy. It is entirely within each Reseller's discretion whether to comply or to not comply, however non-compliance may result in termination of business relationship between Inogen and the Reseller. Inogen reserves the right to cease supplying Products to Resellers, cancel orders, or take other actions against Resellers who violate one or more guidelines of this Policy.

Policy Guidelines:

1. This Policy applies to all forms of advertisements of Products, including but not limited to flyers, electronic and print mailers, brochures, coupons, telephone conversations or other oral sales pitches, newspapers, inserts, electronic media advertising such as e-commerce sites, websites, natural or paid search engine listings, social media sites, or the like.
2. All Products must be advertised at or above the Manufacturer's Suggested Retail Price established by Inogen (MSRP). The initial MSRP list is set forth in Schedule A, which may be amended or revised by Inogen, from time to time, in its sole discretion.
3. Resellers may not advertise a coupon, sale, promotion, or a discount for use with a Product, if said coupon, sale, promotion, or discount will lower the Product's advertised price below the MSRP.
4. Resellers may not advertise that it has "the lowest price," "the best price," or "will beat its competitors' prices", or to use similar statements in advertisements designed to circumvent the intent and spirit of this MAP Policy.
5. Resellers may not advertise that a consumer may "call for price" or "email for price," or use any similar language thereto in advertisements designed to circumvent the intent and spirit of this MAP Policy.

Inogen Minimum Advertised Price (MAP) Policy

Effective Date: January 15, 2016

6. Resellers may not advertise a Product online without listing the price of the Product to circumvent the intent and spirit of this MAP Policy.
7. Resellers may not generally “bundle” Inogen Products with free or discounted products (whether made by Inogen or another company). However, Resellers may include additional accessory products at no extra charge over the phone when necessary, but the giveaway cannot be advertised or featured online as a standard practice or part of a normal package.
8. Resellers may offer free shipping on any Product, so long as the Product is advertised at or above the MSRP.
9. This Policy does not establish maximum advertising or sale prices. Resellers may advertise Inogen Products at any price above the MSRP.
10. This Policy applies only to advertised prices and does not apply to the prices the Products are actually sold. Resellers may establish their own resale prices for all Products.
11. This Policy applies to advertised prices in the United States and in Canada.
12. Inogen reserves the right to advertise below the MSRP, from time to time, for the purpose of conducting price optimization studies. Resellers may advertise the same price points, in the same regions, during the same specified time frames in the optimization studies as Inogen.
13. Inogen reserves the right to update, revise, modify or discontinue this Policy and pricing structure at any time with no need for prior approval from its Resellers. Any revisions or adjustments are solely at the discretion of Inogen.

Inogen Minimum Advertised Price (MAP) Policy

Effective Date: January 15, 2016

Violation Guidelines:

If Inogen determines, at its sole discretion, that a Reseller violates this Policy, Inogen may unilaterally enforce consequences at its sole discretion. If a Reseller violates this Policy and Inogen enforces a consequence, the Reseller shall have a period of 3 business days to cure the violation before the next consequence is enforced. Inogen reserves the right to unilaterally take any or all of the following actions:

- 1st violation: Reseller placed on ship hold of 1 week on current or next order.
- 2nd violation: Reseller's price increased by 5%.
- 3rd violation: Reseller's authorization to bid on Inogen branded key words in search engine marketing revoked.
- 4th violation: Reseller's business relationship with Inogen is terminated.

In the event that a Reseller violates the Policy and Inogen enforces its right to revoke the authorization to purchase and sell Inogen Products, it is within Inogen's discretion to request the return of its Products as well.
